Dear [],

We wrote to you on 25 September with our stage one response to your FOI request and indicated that we would be coming back to you with a further response following consultation with third parties to which some of the information requested relates and/or is likely to relate.

This consultation has now been undertaken and we enclose our stage two response.

However, on the basis of the response to this consultation, we have now identified a need to consult with new third parties on some of the information requested. We will therefore provide a further stage three response when we have completed this consultation process, and we anticipate this will be complete by 9 November. We apologise for the time it is taking to complete the third party consultation process, and hope you will bear with us in the meantime.

Some limited redactions have been made to remove contact details for staff which are not in the public domain, and the names of the more junior members of staff who would reasonably expect their names not to be put in the public domain. This information is exempt from disclosure pursuant to section 40(2) and (3A) of the Freedom of Information Act 2000, on the basis that such information is personal data of those individuals and disclosure of the redacted material would be in breach of the data protection principles under the UK GDPR. We have followed the Information Commissioner's guidance in applying this exemption.

If you are dissatisfied with this response, please come back to me and I will ensure that your concerns are addressed by the relevant Health Innovation Network's Freedom of Information complaints contact. You also have the right to request a decision from the Information Commissioner (ICO) as to whether we have discharged our responsibilities under the Freedom of Information Act 2000. The ICO can be contacted at: Wycliffe House Water Lane Wilmslow Cheshire SK9 5AF.

Yours sincerely,

Charlie Walton
Health Innovation Network Co-ordination Director
